a) Industry Needs from the Alumni: Alumni meet, organized as part of Annual Day Awards function and frequent interaction in the form Panel discussions and inputs arranged for CLDP, is a source of understanding industry trends. The Alumni are identified and invited by the Learning facilitators of each specialization along with the help of VP-Alumni- member of the Student Council. These visits to the campus on multiple occasions help students to prepare themselves for the corporate world.

b) Internships and Winter Projects for Students: Students work in companies as interns for their summer internship programs during the months of May, June & July. For summer internship programs, every student is allotted a faculty member as their internal guide. Students discuss the work environment, the kind of work handled by them during their internship and discuss the requirement gathering needs and tools for the project with their faculty guide. Students are in continuous association with the faculty and faculty in turn keeps a check on the student's association with the company and industry guide under whom they report during the said time period. IIMPGDM also encourages the students to take up industry sponsored winter projects especially for HR specialization. This is done to help students have real life experience of the corporate world.
